Academic Performance Prediction Using Supervised Learning

Batch AIML 13 - Department of Artificial Intelligence & Data Science
GITAM School of CSE, GITAM (Deemed to be University), Bengaluru

Report generated	31 Oct 2026, 14:17

1. Student Details

Student ID	100000
Age	26
Gender	Male
Major	Computer Science
Study hours per day	7.65
Social media hours	3.00
Netflix hours	0.10
Part-time job	Yes
Attendance %	70.30
Sleep hours	6.20
Diet quality	Poor
Exercise frequency (per week)	3
Parental education	Some College
Internet Quality	High
Mental health rating	6.00
Extracurricular Participation	Yes
Previous GPA	4.00
Semester	5
Stress level	5.80
Dropout risk	No
Social Activity	0
Screen time (other)	10.90
Study environment	Co-Learning Group
Access to tutoring	Yes
Family income range	High
Parental Support Level	9
Motivation level	7
Exam anxiety score	8
Learning style	Reading

Time management score	3.00
Exam score	100

2. Dropout Risk Prediction

Predicted status	No
Dropout probability	0.0%
Risk level	**Low**
Model	Hybrid Random Forest + XGBoost (soft voting)

3. Exam Score Prediction

Predicted exam score	97.7 / 100
Performance band	Excellent
Model	Hybrid Random Forest + XGBoost (stacking)

4. Suggested Actions

• Continue the current support plan; no immediate intervention needed.
• Review attendance, stress and sleep inputs: these are the strongest predictors in the model.

Generated by the Academic Performance Prediction system. Predictions are decision support only and should be reviewed by an educator.
